When You Think Of Lift In Your Projects

Think **SAMRUDHYA**

Service forever...

ABOUT US

We are pleased to welcome you as a new Valuable customer . We feel honoured that you have chosen us to fill your requirements with us.....

SAMRUDHYA ELEVATORS PVT. LTD., established in 2010 is a reputed Service Provider involved in the field of Elevators. Samrudhya Elevators Pvt Ltd (An ISO 9001:2015), also registered under section 6 of Karnataka Lifts, Escalators and passenger conveyors Act,2012 . It's a fastest growing company in our market with its state of the art products, delivery schedule and installation provides vertical transportation solutions through a wide product range of passenger, hospital Home & Goods elevators.

There is a continuous improvement and developments have resulted in our company being awarded for its services. We are having professional and technically equipped personnel who are at all levels work with an objective of achieving complete customer satisfaction. Samrudhya Elevators was founded by prominent, sincere and well-experienced engineers in the field of Elevators.

Being a service oriented company, we undertake all kinds of AMC's (Annual Maintenance Contracts), Modification & Repair works of all brands of elevators..

'Exemplary Services' can be called the backbone of Samrudhya Elevators. The servicing team at Samrudhya Elevators is well trained and equipped to handle breakdowns and regular maintenance of lifts very efficiently.

OUR VISION

To be a Dynamic, Innovative and Profitable.

The company wants to meet future expectations of customers in the field of vertical movement with further advancement offering leading technologies on a global platform. Strong vision to be the premier provider of elevators by providing the world class standards and state of the art designed elevators to the clients.

QUALITY POLICY

We believe that quality is everybody's responsibility.

It is this mind-set that has shaped both our quality policy and the relationship with our stake holders. Our vendors are carefully evaluated - not just for the material they supply but for their commitment to quality. Incoming raw material and parts are inspected stringently and random sample checks are carried out on intermediate products. Every final product is thoroughly tested before it reaches our customers.

Certifications, we believe, are an important part of the Quality Process. So even while we uphold the demanding standards of being an ISO-9001-2015 Certified Company, we continue to add more certifications and confirm to different standards, like meeting the EN 81-71 standards for vandal resistant elevators.

And while our obsession with quality is evident in every elevator that sports our label, we know that things can always be better. Our quest for quality therefore is a never-ending one.

PASSENGER ELEVATOR- Auto Door

- Adjustable Door Opening & Closing Time
- Alarm Button
- Car Call Cancellation at Terminal Stop
- Auto Attendant
- Direction Arrow and Position Indicator on all stops
- Home Landing
- Phase Failure and Phase Reversal Protection
- Repeated door closing in the event of Lock failure
- Door Protection by light curtain full length 94 beams
- Emergency Lighting
- Intercom Car to Machine room
- Overload Indicator
- Automatic rescue device
- Smooth Landing
- Simplex ,Duplex, & Advanced Control
- Direction Pre-announcing with Arrival going

↑ TELESCOPIC MANUAL DOOR

We offer telescopic doors that are available in either the fixed sidelight or full breakout configuration. Our telescopic sliding doors often smooth, quiet operation, and are ideal for spaces that require optimum opening width in all applications

Door operation demanded range of imperforated doors which are known for their unique and stylish designing.

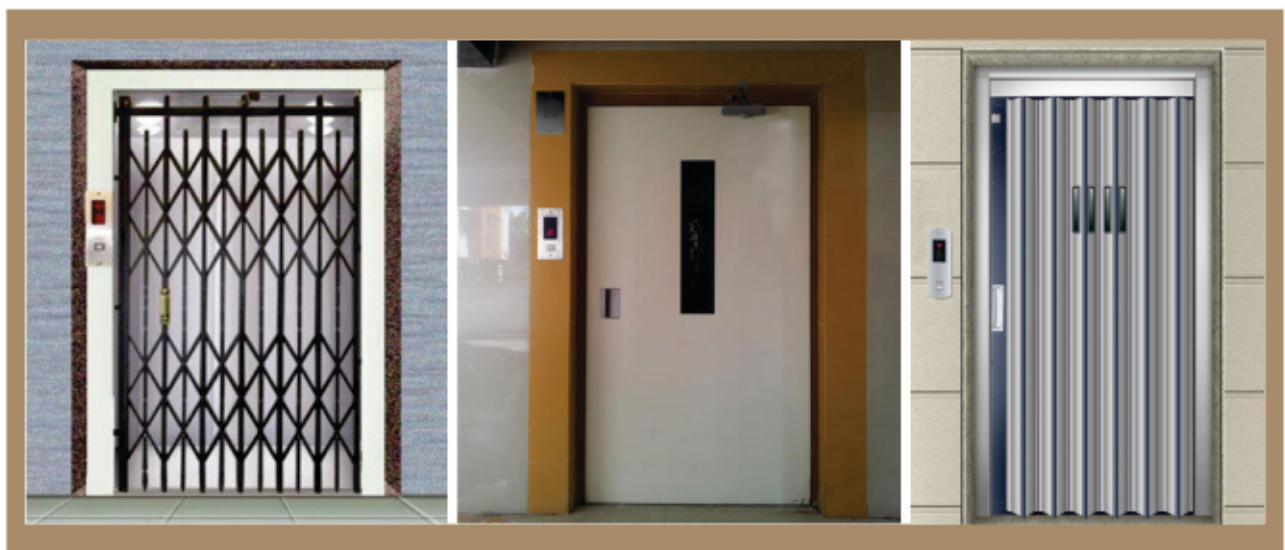

Fabricated from high quality raw material these are very popular for corrosion resistant features.

HOME ELEVATOR

Home Lift is the elevator designed to meet vertical mobility needs in public and private buildings. It is the ideal solution for elderly and impaired mobility persons who can finally move autonomously and free from stairs

The home elevator is a perfect blend of elegance, reliability and advanced safety features. Most of the safety systems are part of standard equipment, providing maximum protection to children, adult and elders. Our innovation in home elevator provides a greater degree of comfort, elegance, convenience with an emphasis on safety.

- ▶ Less Space, Stylish
Comfort & Valuable .

LUXURY AND CONVENIENCE IN YOUR HOME

HOSPITAL ELEVATOR

SAFETY START WITH YOU

Hospital elevators are used for simple transportation of a patient on wheelchair to wheeling away a critical patient on stretcher without disturbing his life support system with doctors and nurses, smoothly, silently and swiftly, without jerks and shocks. We are one of the trustworthy Manufacturers and Suppliers of Hospital Lift. These are made available using good quality and are known for their perfect finishing, durability and great appeal. We can make Hospital Lift available in various sizes and designs as per the specific requirement of the clients.

In any type of lift, safety and reliability are important factors, but in health and medical centres these become vital elements. Our Hospital lifts meet all these requirements to the maximum, together with other factors such as spaciousness, freedom of movement and hygiene

GOODS ELEVATOR

We are engaged in presenting a wide array of Goods Elevators that help in transferring of loads from one level to another. These goods elevator are extensively used in factories and storage facilities for the movement of goods between floors, these elevators are known for their high speed and smooth operations. Designed as per the set industry standards.

Leading Exporter, Manufacturer of **Goods Lift** with **Industry standard. CAPACITY 500 – 5000 KG** Load Quality raw material, with latest Technology At Competitive Price

CAPACITY 500 – 5000 KG LOAD

MRL ELEVATOR

Machine room less elevator

Brings you a revolutionary concept in the field of elevators to give you absolute freedom in designing – MRL – Machine Room less elevators! Our exclusive machine room less elevators brings aesthetic enhancements for you structure.

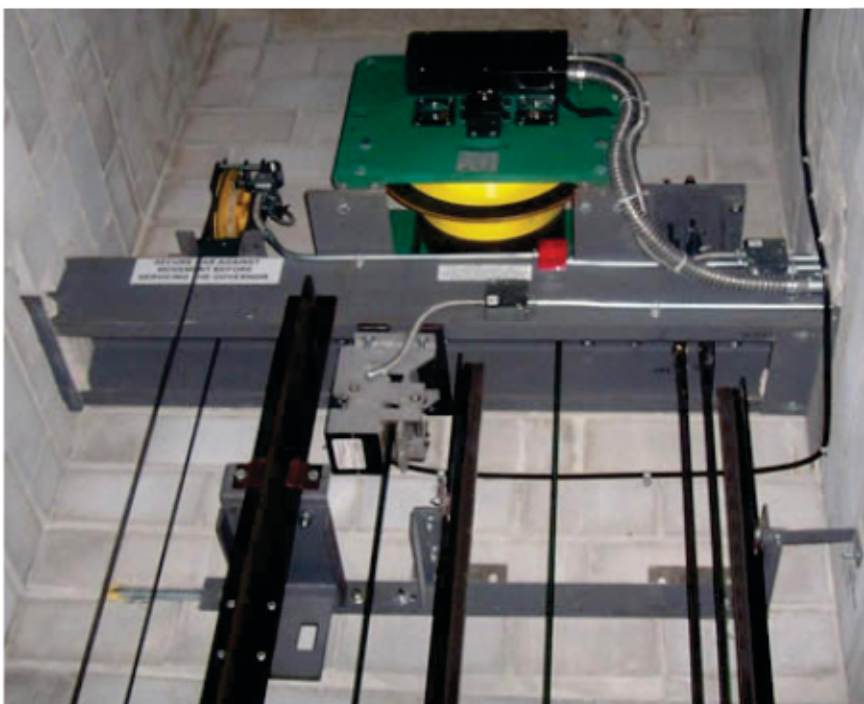

Benefits of MRL Elevator

- The use of MRL Elevator will save significant amount of energy (estimated at 70-80%)
- The MRL Elevator eliminates the cost and environmental concerns.
- The MRL Elevator utilizes a gearless traction type machine, which results in superior performance and ride quality compared with other passenger elevators. MRL's can also operate faster speed thus increasing the perception of quality.

CAPSULE ELEVATOR

CAPACITY 04-10 PASSENGER Capsule Elevators act as Architectural highlights on prestigious buildings. They can be called the ornaments of a building as they enhance its beauty and bring life into it. Their design, features and infinite options add its optimum travel comfort.

They have aesthetically attractive interiors with large glass viewing panel. Capsule lifts demand specialized knowledge and we have the wide experience required to suit your particular concept in capsule elevator operations.

We provide all types of capsule lifts having ultramodern design to provide a cosmic zone experience to the passengers. The design provides an extremely silent operation.

MOTION WITH A VIEW

It is also reliable and economical with minimum maintenance.

The VVVF close loop microprocessor controller incorporated with the system makes the whole operation very sophisticated.

OUR PRODUCTS

*Hi - tech products, Customized design, Cost Effective, Ease of Installation,
Safe and Reliability*

LANDING OPERATING PANELS CAR OPERATING PANELS

ELEVATOR OVERLOAD DEVICE

Salient features

- ▣ Capable of measuring up to 5 tons of weight
- ▣ Easily operates on 230 volt AC supply.
- ▣ Several LED Indicators are available to highlight certain event indications.
- ▣ Low weight and compact in size.
- ▣ Lift load detection through measurement of stress of traction ropes.

ELEVATOR VOICE MP3 PLAYERS

This Voice announcer is a floor announcement system designed for elevators, not only a floor announcer, also a music player, advertising audio player, Can play any MP3 sound files.

Salient features

- Adopt the high accuracy sensor, easy to install.

- Voice message can be freely replaced according to the different needs.
- Support voice customization.
- Support MP3 audio file format with high fidelity sound quality.
- Suitable for all elevators.

MAIN DRIVES

Variable speed drives

TOSHIBA
Leading Innovation >>>

YASKAWA

- Energy Saving
- Setting Dial: Easy to operate for parameter writing and monitoring with setup dial.
- Easy setting, simple operation with the large dial Just turn and push the large setting dial to browse and select the right parameter.

Parameter can be set without power supply to the inverter using the optional parameter; you can read/ write/ retain/ set parameters.

ARD AUTOMATIC RESCUE DEVICE

FEATURES

·In case of a main power supply failure, the lift stopped between floors is moved to floor level, the automatic door is opened and passengers are out safely, For lifts with automatic doors, in case of main power supply failure at floor level, the door is remain opened.

ARD TECHNICAL SPECIFICATION

Input voltage:

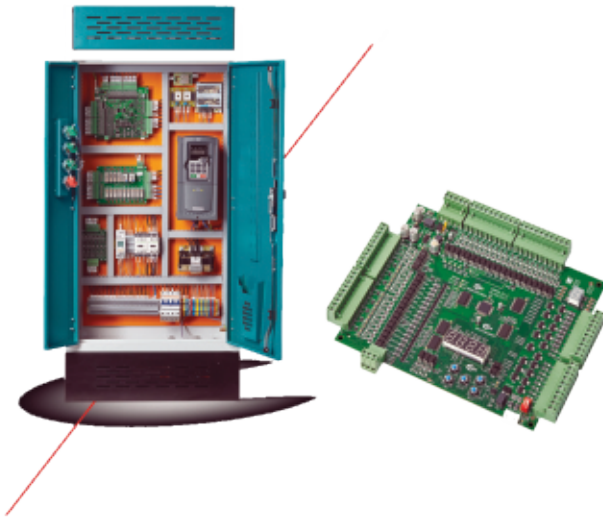

Three phase 440VAC; 50Hz Pure Sine wave main line voltage.

Output voltage:

Two phase 440VAC, 50Hz Modified Square wave with power booster logic.

MICROPROCESSOR CONTROLLER

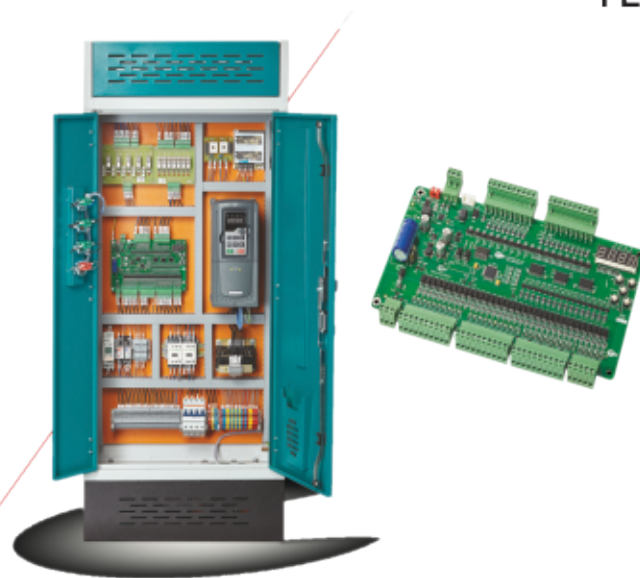

FOR AUTO DOORS

FEATURES:

- 8 Stop Down collective and 6 Stop collective selective.
- Operations: Regular V3F, down collective V3F and collectiveselective V3F also suitable for Auto Door, Double door.
- Speed: Up to 2m/sec.
- All system parameters can be adjusted by using 5 buttons and 4 seven segment placed on the card.
- 7-segment and signalization outputs are short-circuiting protected. In a short circuit case the concerned output is shut down until problem is removed.

FOR MANUAL DOORS

FEATURES:

- No of Stop: 8 Stop Down Collective.
- Operations: Manual Door down Collective V3F
- Speed: Up to 1 m/sec.
- On board seven segment display.
- All the Input and Output are Opto-isolated and available in both 12VDC and 24VDC.
- All the Input and Output are carrying LED indication on board.
- 7-segment and signalization outputs are short-circuiting protected. In a short circuit case the concerned output is shut down until problem is removed.
